

VEGAS VITAL

NUTRITIONAL SUPPLEMENT CONCEPT

YOUR WELL-BEING IS OUR PRIORITY

Vegas Vital has developed a nutritional supplement concept, providing our customers with vitamins, minerals and fiber as well as other essential nutrients.

Even when we try our very best to live a healthy lifestyle based on wholesome nutrition, which should always be the goal, we often fail in our efforts due to time constraints and stressful circumstances. Too often, this dilemma results in reverting back to a diet created out of a need for convenience but with hardly any nutritional value at all. This is why Vegas Vital is like a best friend, supportive, and ready to help compensate for potential deficiencies.

ALOE DRINK

ALOE VERA DRINKS FROM THE VALUABLE ALOE BARBADENSIS MILLER

The three Vegas Vital Aloe Drinks are won from pure biologically grown Spanish Aloe plants of the variety Barbadensis Miller and is also produced in Spain, using a patented manufacturing process. Even the ministry of agriculture responsible, guarantees the origin and the monitoring of biological cultivation on our Aloe Drink Natural with a seal of quality.

Unlike conventional powder-based Aloe juice, our product is 100% freshly squeezed. Due to the certified organic crops, cautious harvesting, as well as the quick processing within 24 hours, our Aloe Drinks contain a very high Acemanan component as well. We also guarantee that they all exclude Aloin.

Through the patented manufacturing process, important vitamins such as A, B and C, minerals like germanium, calcium, iodine, copper, zinc, iron, magnesium, sodium, potassium, and manganese, and also amino acids such as Valine, methionine, phenylalanine, lysine and Leucine, which are found in the Aloe plant as well, are maintained.

In addition to our pure Aloe Drink Natural consisting of 99.98% Aloe Barbadensis Miller, we have an Aloe Drink Honey with 5% blossom honey. The whole range is crowned with our Aloe Drink Graviola, as Graviola (Annona Muricata) stands for a very special tree and its fruit. It originated among others in South America. For centuries the native inhabitants have valued Graviola as a foodstuff, but also for its partial Aloe Vera like and other sensational properties.

Various scientific acknowledgements around the world have confirmed the beneficial effects of Graviola so that a variety of literature can be found on this. We have used this knowledge in the development of our Aloe Vera Drink Graviola and are therefore once again able to show our ability.

- CULTIVATED AND PROCESSED EXCLUSIVELY IN EUROPE
- HIGH PERCENTAGE OF ALOE VERA – 99.98%
- NO ARTIFICIAL COLOURING OR PRESERVATIVES, ALOIN-FREE!
- CERTIFIED ORGANIC CULTIVATION WITH BIO SEAL

CISTUS INCANUS

CISTUS INCANUS – PINK ROCK ROSE

Pink Rock Rose, a very unique, natural substance!

This plant, also named grey-haired rock rose or cistus, is native to Southern Europe, especially the Greek peninsula of Chalkidiki. *Cistus incanus tauricus*, a subspecies, ranks at the top of the list of edible European plants containing polyphenols bringing about a natural anti-aging effect. It is often brewed as tea or processed into stock.

Natives of Chalkidiki established daily tea drinking rituals and it can be noted that they generally reach a higher average age.

According to local lore, the Greek gods of ancient times knew of the extraordinary power of the rock rose, and as early as 400 BC, Egypt imported its resin for use as a natural resource against bacteria and fungal infestation. The combination of resins and polyphenols makes this plant valuable and improves the overall well-being of people taking advantage of its properties.

Cistus incanus tauricus was named "Europe's Plant of the Year 1999" and was awarded a special honor. German universities and various institutes have been studying and researching *cistus incanus* and a great number of references were produced regarding this "miracle plant" and its use.

Polyphenols are said to work as follows:

- ACT AS ANTIOXIDANTS AND NATURAL ANTIBIOTICS, ANTI-INFLAMMATORY AND ANTI-VIRAL IN NATURE
- POSITIVELY INFLUENCE THE BONE METABOLISM
- SUPPORT THE IMMUNE SYSTEM
- PROTECT FROM AGE-RELATED VISION DEFECTS

HYALURON

HYALURONIC ACID WITH METHYLSULFONYLMETHANE (MSM) AND GREEN-LIPPED MUSSEL EXTRACT IN CAPSULE FORM

Active ingredients: hyaluronic acid, glucosamine sulfate and chondroitin sulfate.

Vegas Vital Hyaluronan capsules contain hyaluronic acid, glucosamine sulfate and chondroitin sulfate, ingredients naturally present in our body's joint cartilage.

One of the main prerequisites for trouble-free body movement is healthy joint cartilage. It ensures that bones rubbing against each other are well cushioned, and work without friction or pain. The joints then move smoothly and easily.

In addition to acting as padding, cartilage also functions as a shock absorber against heavy burdens and strains. Therefore, it is extremely important to keep and/or extend the life span of healthy cartilage.

Vegas Vital Hyaluronan capsules offer all this and more: high dosages of biotin (also known as vitamin H or coenzyme R), copper, iodine, niacin, riboflavin and zinc. All these are essential nutrients for healthy cell growth of skin, hair, nail and cartilage. Copper plays an important part in maintaining strong connective tissue but also contributes to the pigmentation process, making it responsible for the colour of your hair and skin. Zinc is credited with anti-oxidant properties and accelerates the healing of wounds due to its role in the course of cell proliferation.

Our Vegas Hyaluronan is obtained through a patented fermentation procedure from plant properties which ensures your body will much more readily absorb the hyaluronan molecules. The manufacturing process also guarantees that our product is absolutely free of animal substances.

HYALURON

RECOMMENDED DOSAGE FOR ONE MONTH

CODE 5004 | 60 CAPSULES

HYALURON | 3 PACK

RECOMMENDED DOSAGE FOR THREE MONTHS

CODE 5005 | 3 X 60 CAPSULES

ACTIVE INGREDIENT METHYLSULFONYLMETHANE (MSM):

MSM is an organosulfur compound, a solid form of sulfur and easily absorbed by the human body. It is naturally present in fresh fruit and vegetables, but also in meat and fish. Among other functions, sulfur has its share in the production of enzymes, antibodies, amino acids and glutathione, which in turn affect the growth of skin, hair, nails and cartilage.

ACTIVE INGREDIENT GREEN-LIPPED MUSSEL EXTRACT:

Green-lipped mussels contain glycosaminoglycans (GAGs), long unbranched polysaccharides. One example of GAG uses in nature include hyaluronan as a component present in joints and cartilage, effectively acting as a liquid lubricant.

- BENEFICIAL FOR SKIN, HAIR, NAILS AND JOINTS
- BENEFICIAL FOR PIGMENTATION AND CELL PROLIFERATION
- HIGH-QUALITY INGREDIENTS, GENTLY PROCESSED

COLOSTRUM PRO!

FOR PHYSICAL AND MENTAL WELL-BEING

Colostrum Pro! by Vegas Vital combines the myth of the so-called firstling milk, existing in the milk of cows during the first 24 hours up to 72 hours after they give birth to a calf, with the benefits of the vitamin B complex.

The high-dosage vitamin B complex of Colostrum Pro! can positively impact the metabolism and support the nervous system functions as well as diminish fatigue. Vitamin B2 (riboflavin) in particular acts as an anti-oxidant, while vitamin B12 and folic acid, also included in Colostrum Pro!, play an important part in the cell division and growth process. Folic acid is absolutely fundamental to the production of DNA, the building blocks of cells. Vitamin B5 (pantothenic acid) is essential in the build-up of coenzyme A, which in turn is of crucial importance for a healthy and vital metabolism. Mentally and physically active individuals specifically, exposed to high pressure to perform on a daily basis, will come to appreciate the energizing effects of Colostrum Pro! as they recognize the necessity to depend on their ability to concentrate and maintain a strong nervous system as well as mental flexibility.

- 🍷 SUPPORTS A HEALTHY METABOLISM
- 🍷 SUPPORTS A HEALTHY LEVEL OF MENTAL PERFORMANCE
- 🍷 HIGH-DOSAGE VITAMIN B COMPLEX

VITAMIN PLUS

WITH VALUABLE VITAMINS, MINERALS AND FIBER
WITH FOREST FRUIT FLAVOUR, IN POWDER FORM

As much as we try to maintain a healthy lifestyle, too often our diet does not meet the requirements to secure sufficient intake of vitamins and minerals. Living in a fast paced world with hectic schedules, pressure from deadlines and daily stressors, we give in to temptation, take shortcuts and mostly choose unhealthy foods that are wrong for us. Even when we strive to adhere to balanced nutrition, it is difficult to incorporate the recommended four to six fruit and vegetable servings per day into our meals. Vegas Vital recognizes this rift between our goals and actual reality and in order to assist us in accomplishing our goals and live a healthier life, developed Vitamin Plus, a nutritional supplement as another option to sustain our intake requirements.

Biotin, niacin, pantothenic acid, riboflavin (vitamin B2), thiamin (vitamin B1), vitamin A, vitamin B6, vitamin B12 and vitamin C as well as the minerals calcium, iron and manganese are all involved in creating a healthy metabolism. Vitamin B6, B12 and vitamin C are essential contributors toward creating and maintaining a strong immune system. Riboflavin (vitamin B2) and vitamin A help sustain normal function of vision, while calcium assists in producing sufficient platelet levels in order to ensure strong blood coagulation. Chromium supports healthy blood sugar levels and iron and riboflavin (vitamin B2) and vitamin B12 are an effective team in the production process of red blood cells and hemoglobin. Last, but not least, vitamin C contributes to the production of collagen and helps support our vascular system.

We tend to underestimate the impact of these vitamins and minerals with regard to healthy growth of hair, nails, bones and teeth, whereas in reality their importance cannot and should not be overlooked. Without calcium, magnesium, manganese and vitamins A, D and K, we would not enjoy healthy bones or teeth. Without riboflavin (vitamin B2) and vitamin C, we would not enjoy the youthful effects of healthy skin texture and appearance.

Vitamin Plus also contains valuable dietary fiber to ensure overall well-being. Fiber fosters a reliable transition process of digested food throughout the intestinal tract, assisting in keeping us regular, absorbing nutrients while filtering out toxins.

- CONTAINS IMPORTANT VITAMINS AND MINERALS
- MAINTAINS ENERGY LEVELS AND SUPPORTS A HEALTHY METABOLISM
- BENEFICIAL FOR SKIN, HAIR, NAILS, BONES AND TEETH

VITAMIN PLUS

RECOMMENDED DOSAGE FOR ONE MONTH
CODE 5008 | 600g (21oz)

VITAMIN PLUS | 3 PACK

RECOMMENDED DOSAGE FOR THREE MONTHS
CODE 5009 | 3 X 600g (63.5 oz total)

BODY FIT

WITH 10 DIFFERENT TEA COMPOUNDS, L-CARNITINE AND VITAMIN C

Our nutritional supplement Body Fit includes a combination of several different teas, a standardized concentration of catechins, the major component of green tea extract and a powerful antioxidant, as well as caffeine. The combined force of these ingredients is seen as greatly beneficial for the purpose of weight loss and overall body fat reduction.

Body Fit also contains L-carnitine and vitamin C, the "dynamic duo" responsible and essential for the transport of fatty acids and breakdown of lipids (fats) for the purpose of generating metabolic energy. L-carnitine transports nutrition in form of fat molecules to our muscles and is the reason why individuals who work out strenuously on a daily basis due to job requirements or workout routines, as well as professional athletes, find an extra dosage of L-carnitine extremely helpful. Our muscles need fat molecules at their disposal in order to work at their highest level and when they do, our metabolism is elevated, burning more calories even hours after the physical exertion has ended.

Caffeine, also included as one of the ingredients, increases the ability to maintain higher performance, as the respiratory and circulatory systems are induced to function more actively. While caffeine is known to fuel the metabolic rate, catechins also effect our metabolism positively by regulating thermogenesis, our body's heat production and a significant component of the metabolic rate. Thermogenesis can potentially be stimulated to increase energy expenditure and fat oxidation.

Vitamin C, widely recognized as a powerful antioxidant, supports the breakdown of fat molecules and efficiently fights harmful free radicals.

Long term studies have shown that if catechins, L-carnitine and vitamin C are introduced into our health regimen, body fat can be reduced and gradual weight loss can be attained. Our product is mainly geared, towards individuals who are serious about moving their physical exercise and/or training for amateur or professional sports activity, to a higher level by lowering their overall body fat and body mass index (BMI).

WARNING: DO NOT USE THIS PRODUCT IF YOU ARE PREGNANT

- 🌿 FIGHTS HARMFUL FREE RADICALS
- 🌿 POWERFUL ANTIOXIDANTS
- 🌿 PROMOTES AND FACILITATES FAT REDUCTION DURING EXERCISE

RECOMMENDED DOSAGE FOR ONE MONTH

CODE 5010 | 90 CAPSULES

BODY FIT | 3 PACK

RECOMMENDED DOSAGE FOR THREE MONTHS

CODE 5011 | 3 X 90 CAPSULES

KIDS BEST

IMPORTANT VITAMINS AND MINERALS

As parents, we constantly strive to provide the best in wholesome nutrition for our children. Vegas Vital Kids Best can assist you in supplementing nutritional needs for children and adolescents when you have picky eaters, your children do not sit still long enough to eat an entire meal, or busy schedules of all family members necessitate fast food on the go. Kids Best is geared towards the specific nutritional needs of children and young adults, taking into account their unique requirements.

Minerals like calcium, iron and magnesium, as well as vitamin B6 and vitamin C, all contribute to the normal functioning of our energy metabolism. Vitamins B6 and C are fundamental ingredients for a strong and effective immune system. Vitamin D assists the human body in absorbing calcium. Calcium is a mineral essential to human beings, in particular in cell physiology, where calcium functions as a signal for many cellular processes. It is also known to play an important role in building stronger and denser bones. Both copper and magnesium are beneficial for a sound nervous system, while iron, folic acid, magnesium and vitamin B6 alleviate symptoms of stress, fatigue and exhaustion.

- IMPORTANT VITAMINS AND MINERALS
- SUPPORTS HEALTHY BONES AND TEETH
- SUPPORTS THE ENERGY METABOLISM
- WITH CHERRY FLAVOUR CHILDREN LOVE
- CHEWY AND YUMMY

FOR CHILDREN 6 YEARS AND OLDER!
